

Fitbase is a pioneer in the German digital prevention industry, supplying companies and health insurances in Germany with online health coaches for their employees or customers. Fitbase engages also in R&D and develops innovative solutions to assist office workers in the future.

## Mobile App Developer (m/f/d)

### Job Description

Currently we are working on several mobile apps to complement our successful web solutions. In collaboration with several health insurances, we recently started a project for stress prevention within caregivers through an app. Furthermore, a research project funded by the German Federal Ministry for Education and Research will start soon with the aim to develop an app-based interactive coach for healthy sleeping incl. bio-feedback through a sensor.

Therefore, we are looking for an App Developer to join our international team in Hamburg (or remotely). As part of our developer team you will be responsible for developing and testing our apps using Flutter.

### What you will do

- Implement new features in our existing/new Apps using Dart/Flutter while aiming at meeting the highest performance standards
- Work closely together with other experienced developers, product managers and designers to ship new components and features
  - *Framework and necessary technical features will be established together with the product manager*
  - *Work with our backend engineers to seamlessly integrate the APIs*
  - *UI/UX designer will provided prototypes (adobe xd) for app design*
- Continuously explore new technologies to enhance our existing apps and suggesting architectural improvements

### Requirements

- Solid experience in mobile app development
- Solid understanding of the full mobile development life cycle
- Working experience with remote data via REST and JSON
- Experience with third-party libraries and APIs
- Experience with Android/Kotlin or native iOS (swift or Objective-C)
- Familiarity with different design patterns and architectures
- The ability to write cross-platform code from Flutter to Android/Kotlin
- Experiences with ORM and SQL
- Demonstrated problem-solving skills and the ability to work independently

- Understanding end-user requirements and use cases and translating them into a pragmatic and effective technical solution.
- High integrity, accountability, a positive attitude
- Fluent in German or English

### What we offer

- interdisciplinary and international young team
- inspiring work environment in Hamburg
- esprit and passion of an e-health start-up
- flexible working hours, table tennis, table soccer, joint activities

**Operation site:** Ruckteschellweg 8a, Hamburg (or remotely)

**Type of employment:** unlimited contract

**Starting date:** upon consultation

Please contact Johannes Heering for further information. If you are interested in joining our team, please send your application with CV, salary expectations und cover letter via e-mail to heering (a) fitbase.de.

***We are looking forward to your application!***
